Dear sir,

**SUB: Appreciation towards your selfless service.**

Sir, as you know my father got admitted to your hospital on 9<sup>th</sup> of July 2014 and subsequently diagnosed with triple vessel disease and on the advise of Dr. Tom Devasia he underwent CABG where you played a critical and main role . Thanks to you , my father has recovered tremendously and he is back to normalcy. It was your caring , intelligent and empathetical personality that has brought my father out of the evil hands of "Yama". Persons like you reestablish human beings' faith on god and human will power. You are a gem in an institution like Kasturba Hospital, Manipal. Even Dr. Sambhram and Dr. Rai have been instrumental in my father's recovery. May god bless you and your family .

Thanking you,

Yours faithfully,

(Nagesh Prabhu)
